Melissa Rodd -	2008	Lynne McClure	2009
Karen Wintle	2008		

There is one vacancy for an elected member on General Council to bring the complement up to 14 elected members

The following people are nominated to join General Council from 2010:

Name	Proposer	Second
David Lawrence	Dave Hewitt	Tom Pole

In the absence of other nominee(s) the above will be elected without opposition.

The following Statements have been prepared by the nominee and proposer:

Nominee: David Lawrence

As a secondary mathematics teacher in the early stages of my career the ATM has played an influential role in nurturing my enthusiasm and energy and I feel that my membership has already greatly rewarded me, both personally and professionally. I am very passionate about mathematics education and in addition to being a member of the committee for the Birmingham branch I will also be a regular attendee of the East Midlands and Marches branch meetings, affording me the fortunate opportunity to be an active part of professional communities with supporters of three different branches. To expand my support of the ATM from the local level I would like to join the General Council and I feel that I could play a strong role in the future development of the Association, with my current main interest being in its promotion and the support it can offer to all teachers of mathematics.

Proposer: Dave Hewitt

I have known David since he started his PGCE course in 2007. He is one of the most thoughtful teachers I have known with an impressive depth of analysis on his own practice as a teacher and also mathematics education more generally. He is on the committee of the Birmingham local branch of ATM and has recently helped out at the ATM stall at the Education Show. David has become interested in the work of Caleb Gattegno, who created ATM (actually ATAM at the time) in the early 1950s and as such is someone who can bring a sense of the thinking behind ATM's early activity to its current work. He is immensely efficient and reliable and I feel David would be a wonderful addition to the ATM General Committee.
